

Datatech was founded in 1996 with the passion to provide complete solutions for an enterprise's entire information technology needs as well as to provide a personal level of service where our clients truly become our friends. As a Certified Small Business our core values of Quality over Quantity, Adding Value, and Effective Security have been essential to our sustainability allowing us to foster long term client partnerships. Our world class staff offers a full array of technology and management services to our clients.

The Datatech team is proud to have successfully completed a multitude of projects and engagements for the client segment with annual revenues of \$100 million to \$26 billion. These projects have consisted of staff augmentation to Datatech managed full SDLC project teams for multi-year multi-million dollar projects that are consistently completed on time, in scope, and within budget. Projects have resulted in new and enhanced functionality, elimination of multi-million dollar recurring maintenance expenses, and reductions in risks and costs in many areas including system upgrades, technical expertise, and security exposures.

Company Principal:

D. Kirk Beatty, President and CEO, has over 30 years of experience in the information technology industry. A graduate of the University of North Carolina at Charlotte with a MBA in Global Business and a BS in Computer Science, Kirk Beatty is currently in the PhD Leadership Studies program at North Carolina A&T University.
